Radiant Celebrates 20 Years of Success

South Plainfield, N.J. — Radiant Communications announced the company's 20 year anniversary celebration will begin on January 28, the date the fiber optic component manufacturer was founded by Gene and Mike Thaw in 1985.

"Radiant's continued success is a reflection of the talent and dedication of our engineering, sales and support team. Our anniversary provides an opportunity to celebrate our achievements and applaud the efforts of the people who have made it possible," shared Gene Thaw.

Radiant's employees will gather at the South Plainfield corporate office to kick off the celebration which will be dedicated to Mike Thaw, Radiant's president, who recently passed away.

During the last two decades, Radiant has continued to be at the forefront of fiber optic solutions. With 55 employees in multiple locations across the United States, Radiant currently produces the broadband industry's largest portfolio of fiber optic products including transceivers; MPEG 2 and 4 encoders and decoders; remote monitoring systems; short and medium haul, SDI, HDTV, multiplexed and telephony systems; fiber optic broadband and L-Band systems; Ethernet (IP) Systems from 256K to 10 gigabit; WDMs, CWDMs and DWDMs; and passive fiber optical products including assemblies, patch and splice cabinets, connectors, mating sleeves, attenuators, couplers and splitters.

The company's products, which are designed to cost effectively maximize network performance and enable the deployment of advanced services, are used by leading MSOs including Comcast, Time Warner Cable, Adelphia, Cablevision, Charter Communications, Cox Communications and Insight Communications. In addition, Radiant's Ethernet and audio/video transport links support the operations of the New York Stock Exchange, IBM, U.S. Naval Intelligence, Mexico City Department of Traffic Control and the Olympic Games Corporation.
