**South Plainfield, N.J.**—Radiant Communications announced the promotion of Sandeep Patel to technical support manager. In his new position, Patel will evaluate product enhancements, oversee all product testing, spearhead customer technical support and maintain local area networks. Prior to the promotion, Patel served as the manufacturer's technical support specialist.

“Sandeep's in depth product knowledge and engineering skills have earned him this promotion. We look forward to the positive impact he will have on our customers' experience,” shared Lou Nagorsky, Radiant Communications' national sales manager.

Before joining Radiant Communications in 1999, Patel worked in the information technology field. He has extensive technical experience across a variety of network platforms.

### About Radiant Communications

Radiant Communications manufactures the broadband industry's largest portfolio of fiber optic products for a variety of applications including the transmission of voice, video and data. The company leverages cutting edge technology to create cost effective solutions for fiber optic baseband systems; SDI, HDTV and multiplexed systems; MPEG 2 or 4 video and audio over IP; fiber optic broadband and L-Band systems. IP network solutions are offered in 10/100/1000 mbps as well as 10 gig solutions. All products can be delivered over single fiber solutions as well as CWDM and DWDM transports.
