South Plainfield, N.J. — Today Radiant Communications announced the passing of its co-founder and president, Mike Thaw, who died suddenly of a heart attack on Christmas Eve at the age of 61.

The industry veteran launched Radiant Communications on January 19, 1985 with his brother, Gene Thaw. Gene, Radiant's chairman of the board, has assumed Mike's responsibilities within the organization.

"Through Mike Thaw's vision and determination, Radiant grew to become a premier manufacturer producing the industry's largest selection of fiber optic products. The Radiant Communications team is dedicated to continuing the success of the company in his honor," stated Lou Nagorsky, Radiant's national sales manager.

Mike, a long-time member of the Society of Cable Telecommunications Engineers, was involved in philanthropic activities throughout his community. He was also an avid golfer who was very active in his golf club. Donations in his memory can be made to the American Heart Association.

About Radiant Communications

Radiant Communications manufactures the broadband industry's largest portfolio of fiber optic products for a variety of applications including the transmission of voice, video and data. The company leverages cutting edge technology to create cost effective solutions for fiber optic baseband systems; SDI, HDTV and multiplexed systems; MPEG 2 or 4 video and audio over IP; fiber optic broadband and L-Band systems. IP network solutions are offered in 10/100/1000 mbps as well as 10 gig solutions. All products can be delivered over single fiber solutions as well as CWDM and DWDM transports.
