RCC SPLICE TRAYS

All of the splice trays are made of 6061 electroplated aluminum. A self adhering 12 fiber splice chip is included with each splice tray. The RMM and RFM are utilized in all RCC Fiber Optic Patch Panels.

**RCC Splice Tray Part Numbers**

RMM – HS12
- Small sized 12 fiber splice tray used with RCC W12 & W24 units.

RFM – HS12
