WS Series
Indoor Fiber Optic Patch Panels

The WS Series wall mount splice units are an indoor fiber optic splice panel conveniently sized to handle 48, 96 or a 192 fiber installation. Each item comes with fiber splice trays - clear anodized aluminum with 12 fiber capacity in each tray, and an accessory kit to assist in cable management during the fiber installation.

OPTIONAL EQUIPMENT:

Part Number Information - Please see the build listing information section for further product listing information.

Pricing Information – Please contact Radiant for all pricing information.

Below, we have a unit pictured to give an example of the unit with four splice trays installed.

The part number for the illustrated item below would be WSB-H48
